

**Solar Hot Water Design & Installation
+ NABCEP Entry Level Exam
40 Hour Interactive, Online Training Experience**

Solar hot water (thermal) systems have been around for decades, but have never been as popular as they are today. Bob Ramlow is one of two ISPQ certified independent master trainers in the world. His book, "Solar Water Heating" is recognized as a comprehensive design and installation manual and serves as our guide as you prepare for the NABCEP Entry Level Exam. This 40-hour course includes Bob's book, video lessons, reading assignments, quizzes, discussion, homework problems, and design software. It's the most comprehensive course available for building professionals.

ONLINE - March 5 - April 18, 2012
(Course is self-paced, so dates are flexible)

Bob Ramlow, ISPQ Certified Master Trainer
